As-Salaamu Alaikum Respected Patrons of the IEC;

We pray that all of you are in good health and spirits. We are reaching out to our esteemed community asking for your financial support at this time of need. As most of us have noticed an increase in our electric and heating bills this season, so has the center. We urgently need all who receive this email/telegram to immediately send or bring to the center at least \$100 with the intention of helping our center maintain its heat and electricity and pay other outstanding bills. Arrangements can also be made to have your donation picked up.

This is an opportunity for our community to step forward and directly change a dire situation into something full of barakat. Imam Ali said: "It is in the changing of circumstances in life that the essence of man is revealed." If you really love your center, let your essence show in your donation. InshaAllah every dollar given will result in multiple 'dollars' repaid to you by Allah. This is His promise.

The IEC Board thanks you in advance and prays for each of you that are now reaching for your checkbooks and wallets during this time of need.
